Child Works

A Superior Company

Superior Recreational Products, Inc is a total solutions manufacturing and supplier to many industries, with its roots deep in the park and playground markets including churches, schools, and early childhood development centers. Over the years, the company has expanded to new markets including resorts, hotels, airports, and restaurants. SRP has developed into the only company in its field to offer—direct to all of its customers—the ability to purchase outdoor playgrounds, shelters, shade, indoor playgrounds, water slides, and site amenities, thus giving SRP the ability to supply products for total solutions for its customers.

Along the way, SRP has acquired or developed many brands and products including Child Works, Playland, Grounds for Play, Litchfield Landscape Elements, WebCoat, Wow Playgrounds, Superior Shade, PlaySystems, Skyspan and others.

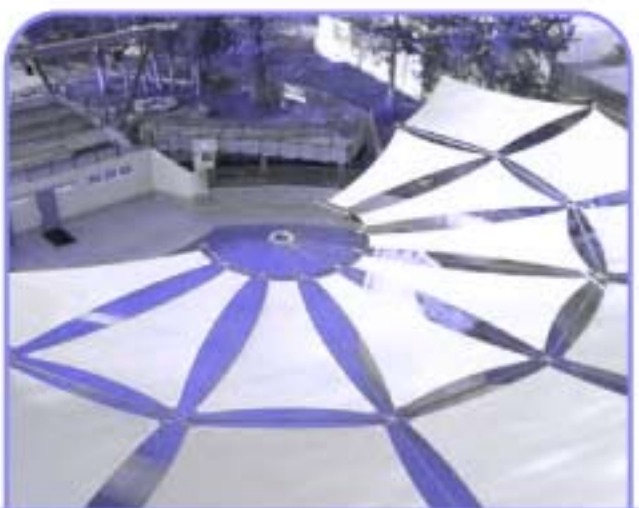
Shade

Protect your investment and your playground's visitors. Shade can help keep your equipment cool to the touch and keep sun damage from jeopardizing your investment. Paint and colored plastic, as well as sensitive skin, are safe under the shade! Automobiles, too, can be kept cooler and stay out of the paint-fading UV rays of the sun, not to mention the protection from the threat of cancer from harmful prolonged sun exposure!



Great for:

- Water parks
- Pool decks
- Playgrounds
- Bleachers
- Dugouts
- Concessions
- Lounge areas
- Picnic areas

We have you covered with our versatile line of shades. Call your dealer now to find out what type of shade best fits your specific needs. Our square and rectangular shades are efficient and economical. They also come in a wide range of sizes. We also offer umbrellas and sails. Our shades are suited to any sort of outdoor activity or playground. Our structural umbrellas are engineered to withstand short gusts of wind up to 75 mph when opened and 93 mph when retracted. They have removable handles with stop to raise and lower the canopy. Our cantilever shades provide the coverage you need and the space you want. These shades don't have a center post, leaving you with more room to relax. They are able to pivot 360°. The optional pivoting base is perfect for utilizing the shade at varying times of the day for covering more than one area. These shades are 100% UV rated and waterproof. They are also available in a wide range of prices to fit all budgets. We also provide custom structured shades.

Shade Fabric Colors

Color your playground! Choosing the right color for your playground is such an important step. Do you want your playground to blend in with its natural surroundings or stand out and be noticed? Whatever you prefer, we have the perfect color combination for you. With 21 plastic colors and 20 metal colors available, and 12 shade colors, we're sure you'll find just what you are looking for! Weather-Shield™ is an optional extra step in our normal coating process, which offers enhanced corrosion protection to your playground. The coating Process begins with our standard triple-coated, corrosion-resistant Allied steel tubing. Next, a layer of an environmentally-friendly epoxy powder coating—specially formulated to greatly improve corrosion protection, chemical resistance, and edge coverage—is applied. Finally we apply our polyester powder coating finish color, which offers superior protection against UV exposure. Perfect for harsh weather conditions or coastal locations, our Weather-Shield™ application processes will greatly lengthen the life of your playground investment. Note: There is an up-charge of 5% on retail price for Weather-Shield™.
